BALAJI LIFECARE

Manufacturing Of Pharmaceutical API Bulk Drugs Intermediates

GSTIN: 24BIFPM7087R1ZE / Mfg. No. G/25A/5957-A Or G/28A/7292-A

PRODUCT LIST

BENFOTIAMINE INH

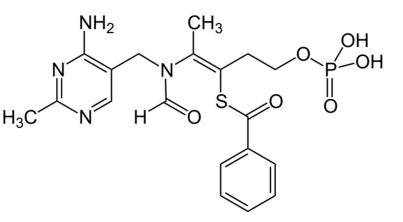

Benfotiamine is a dietary supplement of thiamine. It is also known as Vitamin B1. It is used in the treatment of low levels of thiamine in the body. It protects the body from conditions which are caused due to low levels of thiamine such as heart and nerve disorders.

CAS No. 22457-89-2

Molecular Formula: C₁₉H₂₃N₄O₆PS

Molecular Weight: 466.4 g/mol

Grade: IN HOUSE (INH)

CARBAMAZEPINE

Carbamazepine is a medicine used to treat epilepsy. It helps prevent and control seizures (fits). It can also be taken for nerve pain caused by diabetes (neuropathy) or a painful condition of the face called trigeminal neuralgia. Occasionally it is used to treat bipolar disorder.

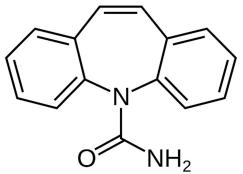

CAS No. 298-46-4

Molecular Formula: C₁₅H₁₂N₂O

Molecular Weight: 236.27 g/mol

Grade: IP
