

API's

Development and production of the highest quality active pharmaceutical ingredients (APIs) since 2011

Faran Shimi Pharmaceutical Company, a subsidiary of Golrang Industrial Group (GIG), one of the largest private industrial groups in Iran, has been producing the highest quality API and FDF (final pharmaceutical products) in the region since 2010. During the past 3 years, the company Faran Chemical Pharmaceuticals has spent most of its efforts on the extraction and purification of opioid alkaloids along with the production of other APIs. Today, we are recognized as the main supplier of a large number of active ingredients of opioid drugs and other APIs throughout the country and the Middle East.
