ABOUT US

Ishita Group of Companies delivers stupendous services and growth mechanism to its clients and has helped the group serve leading pharmaceutical companies for last 30 years. The vision is to be established as one of the global service providers in Pharmaceutical Industries. We are among the selected group of people with experience, knowledge and vision to support our customers in the field of Pharmaceuticals in International and Domestic markets. We have strategic partnership with customers in India & Overseas market to help them develop and offer Product & Technology with solutions to business in line with global market requirements. The group is an authorized distributor and agent of many leading pharma packing materials and API manufacturers. Our group companies are :

- Ishita API Pvt Ltd- Flagship company
- Ishita Plastics- Pharma Packaging
- Poly Pharma Drug House- API Trading
- Aspire India Lifecare LLP - Formulation Exports
- Kadamb Pharmachem - Manufacturing APIs & Intermediates
- Shree Shiva Enterprise - Manufacturing of Inorganic & Fine Chemicals

PHARMA PACKAGING

- Ishita Plastics is engaged in marketing of pharmaceutical packaging and has a wide range of pharmaceutical packaging materials like Aluminum Foils, Alu- Alu foils, PVC & PVDC films. We are authorized distributors for one of the largest manufacturer of PVC & PVDC films for western India.
- All our manufacturing facilities are approved by US-FDA approved Pharmaceutical giants like Sun Pharma, Cadila Pharma, Torrent Pharma, Intas Pharmaceuticals Ltd, Aurobindo Pharma, Mylan Labs etc. We are exporting our packaging material to more than 20 countries.
- All our packaging products are US-DMF registered and some of our products are also Canadian-DMF registered. Our Principal manufacturers are GMP, ISO 9001:1015 and ISO 15378 certified.
- Marketing is our strength and we keep the sole marketing rights of our products with us. We have our PAN India presence through our agents and partners. We are the marketing front for many leading manufacturers.

PRODUCT LIST

ALUMINIUM FOIL	PHARMACEUTICAL FILMS	LAMINATES
Blister Foils	PVC Films	3 Ply Laminates
Strip Foils	PVDC Films	4 Ply Laminates
Alu Alu Foils	Aclar Films	Customised Laminates
Child Resistant Foils	Triplex Films	
Lid Foils	PET Films	
House Foils	Metalize PVC	

ACTIVE PHARMA INGREDIENTS (APIs)

- In the year 2004, we incorporated Poly Pharma Drug House to supply APIs to Pharma Companies after procuring them from manufacturing companies like Amoli Organics, Kores India, Bajaj Healthcare, Vital Healthcare etc.
- From the year 2012, we started contract manufacturing of our APIs through Ishita API Pvt Ltd. wherein we have our own QA/QC lab for our audit procedures.
- In the year 2020, Kadamb Pharmachem was established as a state-of-the-art manufacturing facility for our APIs. This manufacturing facility is dedicated solely for the production of Divalproex Sodium and its KSMs. Our plant is designed as per WHO GMP guidelines.
- In 2022, we signed a Joint Venture with one of the leading API manufacturers to market and export their anaesthetic range of APIs.

Active Pharmaceutical Ingredients (APIs)

PRODUCT NAME	THERAPEUTIC CATEGORY	PHARMACOPOEIA
Sodium Valproate	Antiepileptic	IP/BP
Divalproex Sodium	Antiepileptic	IP/USP
Valproic Acid	Antiepileptic	IP/BP/USP
Clotrimazole	Anti-Fungal	IP/BP/USP/EP
Ambroxol HCl	Mucolytic agent	IP/BP/USP/EP
Benfotiamine	Diabetic Neuropathy	HIS
Lidocaine HCl/Base	Anaesthetic	IP/BP/USP/EP
Bupivacaine Base/HCl/H2O	Anaesthetic	IP/BP/USP/EP/IHS
Prilocaine HCl/Base	Anaesthetic	IP/BP/USP/EP
Benzocaine	Anaesthetic	IP/BP/USP/EP
Procaine HCl/Base	Anaesthetic	IP/BP/USP/EP
Ropivacaine HCl	Anaesthetic	IP/BP/USP/EP

FORMULATION

- Aspire India Lifecare LLP was born in 2017 with a vision to enter the world formulation markets. It aims to serve healthcare and is well organised to implement cutting edge technologies to optimize processes and improve the innovation in healthcare.
- Aspire gets manufactured and markets a range of Critical Care products which offer superior quality and affordability to our end customers. It currently exports critical care, anesthetic, anti-emetic, antibiotic infusion and various other therapeutic products in parenteral form.
- We have invested heavily into various formulations facilities and look forward to entering into Regulated markets in the coming years. At present , Aspire has its associates in South East Asia, certain parts of Latin America , CIS and African countries apart from its presence in India in niche market segment.
- Currently, we are exporting to countries like Myanmar, Cambodia , Guyana, Nigeria , Ghana , Ivory Coast, Russia, Uzbekistan, Armenia and Georgia.
- With over 100 products under registration, Aspire further aims to enter into the Regulated Markets of Europe and GCC by 2025.

PRODUCT LIST

PRODUCT NAME
Iron Sucrose Injection
Meropenem for Injection
Ondansetron Injection
Ceftriaxone Injection and its combinations
Tranexamic Acid Injection
Acyclovir Injection
Rabeprazole Injection
Omeprazole Injection
Cefepime Injection and its combinations
Propofol Injectable Emulsion
Levocarnitine Injection
Citicholine Injection
Levofloxacin Infusion
L-Ornithine, L-Aspartate Infusion
Artesunate for Injection
Alpha Beta Arteether Injection
Clindamycin Injection
Granisetron Injection

*These are few of our registered products

KEY STARTING MATERIALS (KSMs)

- We manufacture our own KSMs for our APIs, which gives us an edge over others, who procure KSMs from vendors.
- We supply KSMs to US FDA approved Pharma Companies for their APIs. We are a trusted partner for these companies for their KSMs for various APIs.
- We also help these companies in KSM documentation for their API Certifications.
- We have our own R&D with experienced Scientists wherein we develop various KSMs and Intermediates for leading Pharma companies. We also undertake manufacturing of KSM and Intermediates for leading companies as their CRAMs partner.

INTERMEDIATE/KSM LIST

KSMs	CAS No.	END USE
Diethyl Dipropyl malonate	6065-63-0	Divalproex Sodium
Ortho Phenoxy Aniline	2688-84-8	Nimesulide
2-Chlorotrityl Chloride	42074-68-0	Clotrimazole
Diacetone fructose	20880-92-6	Topiramate
2,6 – Pipecoloxylidide	15883-20-2	Ropivacaine, Bupivacaine, Mepivacaine
2-Chloro-N-(2,6-dimethylphenyl)/ CAX Base	1131-01-7	Lidocaine
(2S)-4-Oxo-2-(3-thiazolidinylcarbonyl)-1-pyrrolidinecarboxylic acid tert-butyl ester	401564-36-1	Teneligliptin Hydrobromide Hydrate
1-(3-METHYL-1-PHENYL-5-PYRAZOLYL)-PIPERAZINE	401566-79-8	Teneligliptin Hydrobromide Hydrate

INORGANIC & FINE CHEMICALS

- In 2021, Ishita entered into fine chemical and inorganics chemical manufacturing through our joint venture with Shree Shiva Enterprise. It started manufacturing of Brominated Compounds at our Chhatral facility.
- With our expertise we add value to a diverse set of industries including Pharmaceuticals, Agrochemicals, Speciality Chemicals, Oil Drilling Industries.
- We are also a leading manufacturer of Sodium Hydroxide pellets AR/LR Grade and Potassium Hydroxide Pellets AR/LR grade.
- We select the best quality raw material for Sodium hydroxide and Potassium hydroxide pellets as per our clients requirements. We have all the necessary documentation support and facility infrastructure available to cater to major pharmaceuticals and speciality chemical clients.
- Our installed capacity for pellets and Powder is 100 Mt/ Month for both the products combined.

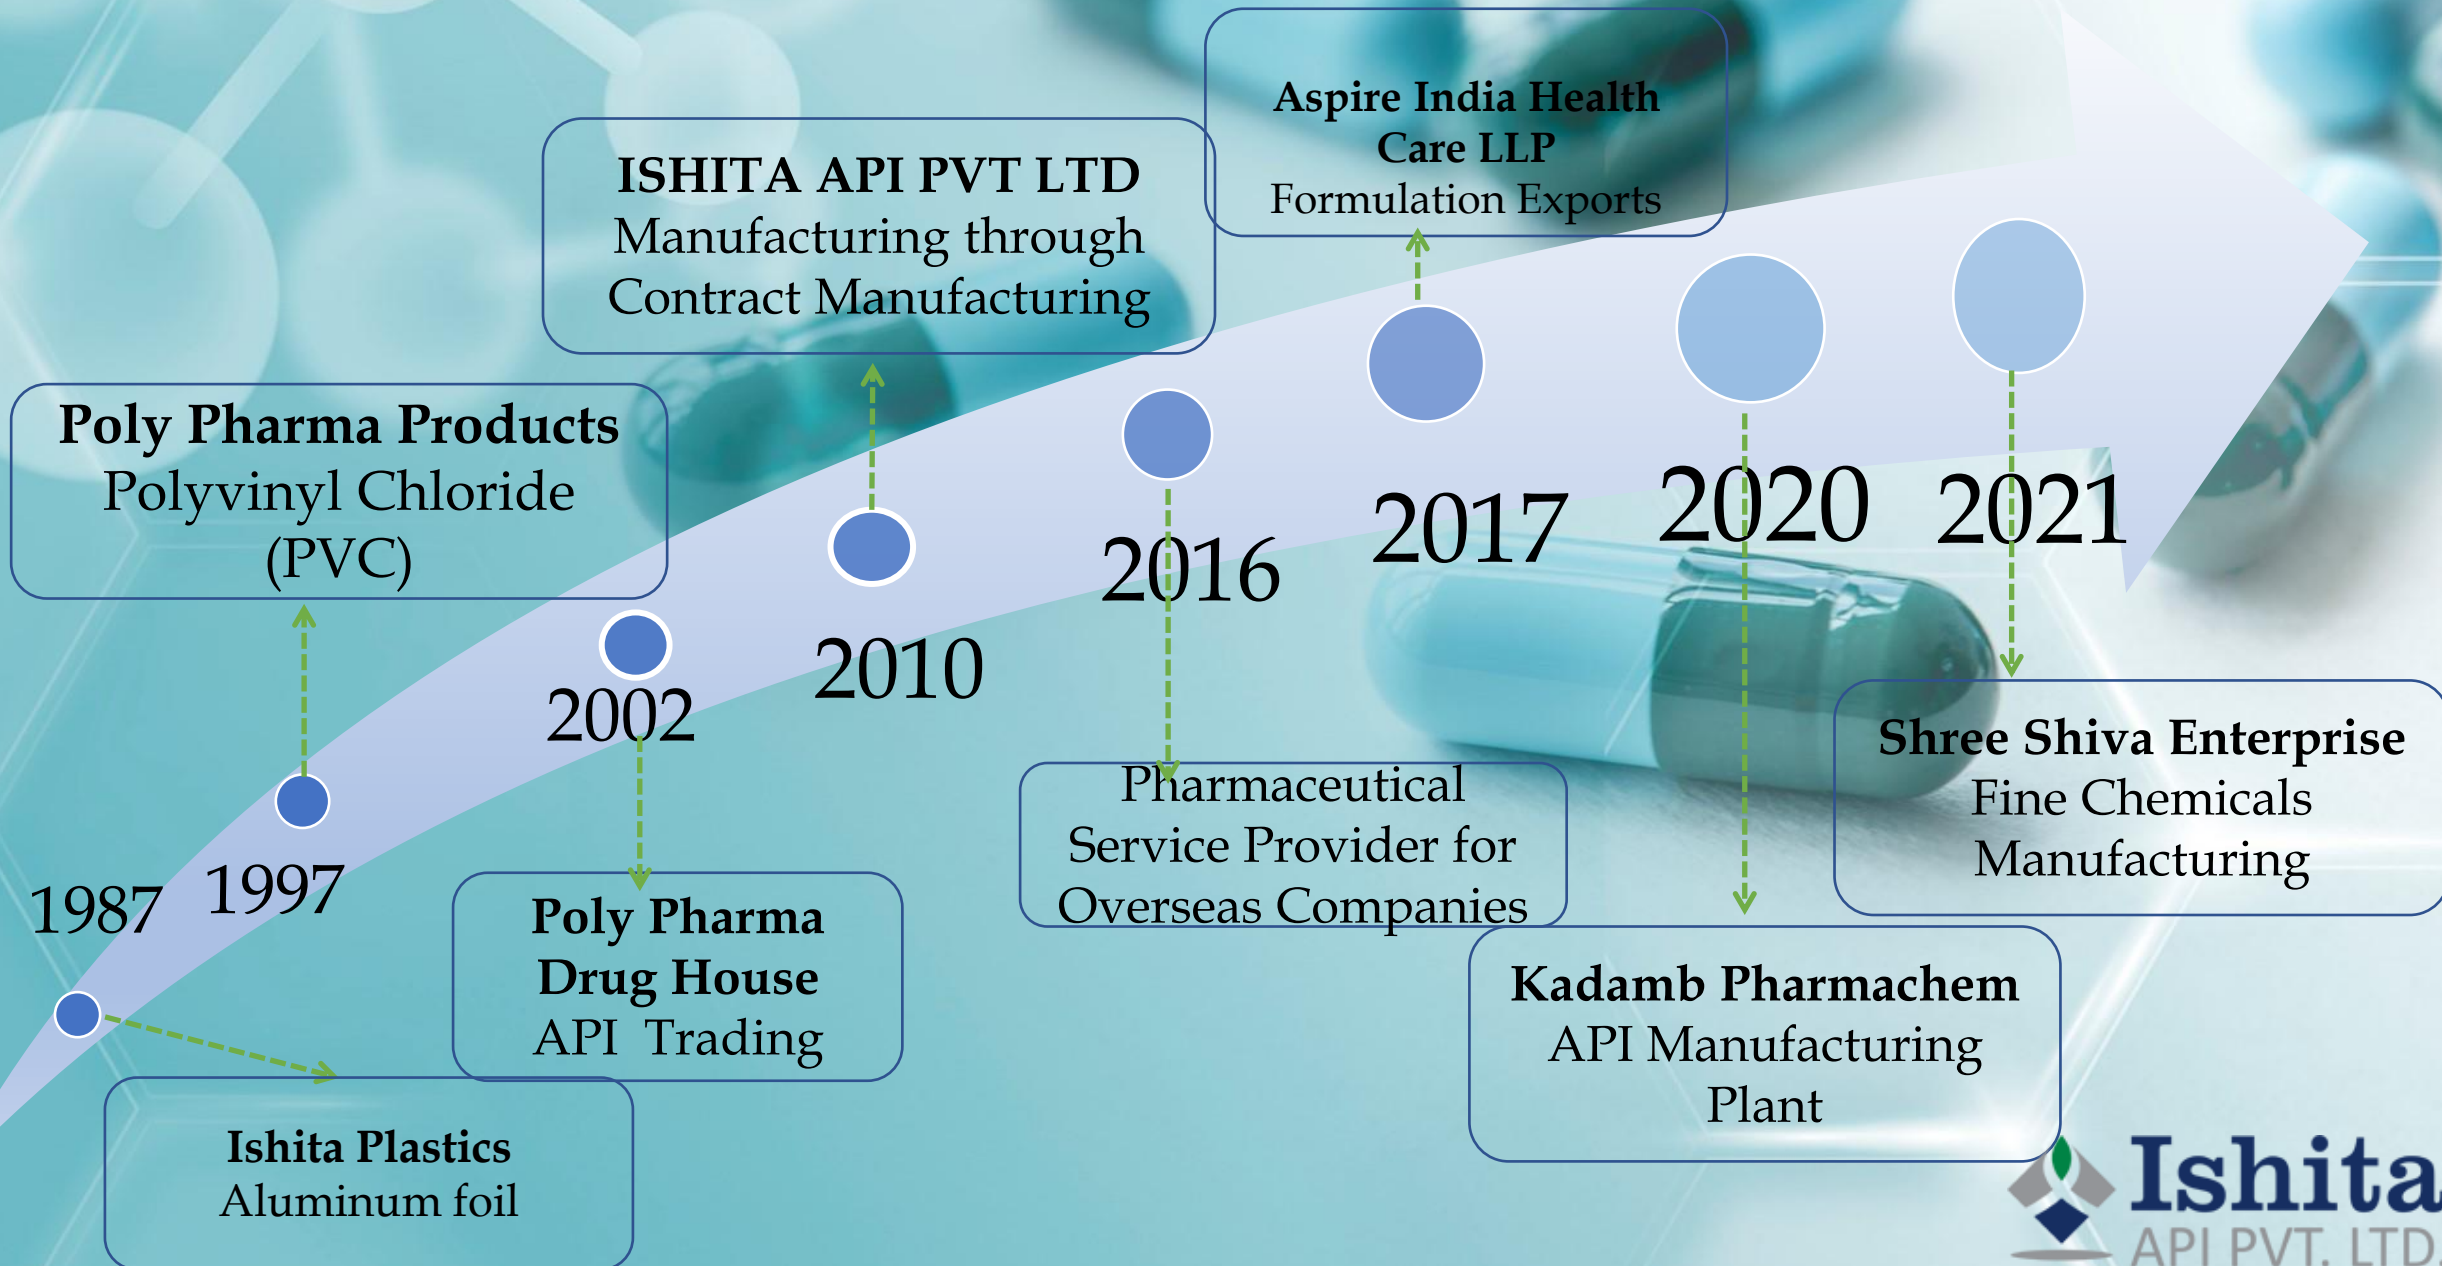

PRODUCT LIST

SPECIALITY CHEMICALS	END USE
N-propyl bromide	Pharmaceuticals, Agrochemicals, PTC manufacturing etc.
N-Butyl bromide	
Sodium bromide Solution	Water treatment, Oil drilling industries, Pharmaceuticals and fine chemicals
Sodium bromide powder	
Sodium Hydroxide Powder and pellets LR/AR Grade	Pharmaceuticals, Laboratory chemicals
Pottasium Hydroxide Powder and pellets LR/AR Grade	

PHARMA AS A SERVICE

- We offer a varied range of services covering almost every sphere of the pharmaceutical domain and these include our **Pharmaceutical Export, Contract Manufacturing, Regulatory Support, Manufacturing Services** and **Packaging**. Due to our wide experience in all major pharma fields from packaging material to API to formulation, we strive to be a focal point for any regulated, semi-regulated, less regulated sourcing of intermediates, KSM's and APIs.
- We are currently working with more than 200 Pharmaceutical companies which includes all formulation from oral solids and liquids, small and large volume parenterals, external preparations. We are associated with different manufacturers having different certifications like USFDA, EU GMP, PICS, WHO-GMP etc.
- Gujarat is the Pharma hub of India. We are located in Ahmedabad, Gujarat which helps us to connect directly with all the major pharma players of India as most have their manufacturing plants in Gujarat.

Timeline

Active Pharmaceutical Ingredients (APIs)
