# ABOUT THE COMPANY

Mortar and Pestle is a Dedicated Female Hormones Manufacturing Company. We are committed to Empowering Women's Health and Well-being through Our Innovative Hormones Solutions. With the Passion for Excellence and a focus on delivering Cost-effective High-quality products, We strive to impact Women's Lives Positively Worldwide. Our Commitment extends from APIs ( Active Pharmaceutical Ingredients) to Formulation to provide Comprehensive Educational Resources, Expert Advice, and a Compassionate Customer Care Team. We believe in Empowering Women to make Informed Decisions about their Health and helping them achieve Fertility with Optimal Hormonal Balance to Celebrate Motherhood and Deliver the World a Bright Future.

# VISION

We are committed to the Vision of **आत्मनिर्भर भारत** (Self-reliant India) and delivering Quality Active Pharmaceutical Ingredients (APIs) Products. By producing APIs products Locally, We contribute to Reducing Dependence on Imports, Promoting Self-reliance, and Strengthening the Indian Pharmaceutical Industry to serve the Globe, a Cost-effective Quality Medicine with Indian Vedic Phenomenon of **वसुधैव कुटुम्बकम्** (The World is One Family).

# MISSION

Our Mission is to Empower Women on their Fertility Journey by developing Innovative and Effective Hormone-based Products that enhance Reproductive Health and increase the chances of Successful Conception. We are committed to supporting Women at every stage of their Fertility Journey, from Optimizing Reproductive Health to Assisting with specific Fertility Challenges.

# PIONEERING FEMALE FERTILITY SOLUTIONS

Our 5 Key API Formulations for Overcoming Infertility Challenges are:

## 01. DYDROGESTERONE

- It helps in maintaining a Healthy Womb Lining during the Pregnancy Stage.
- It is a Female Hormone that Regulates Ovulation and Menstruation in Women.
- It prevents Overgrowth of the Uterus in Postmenopausal Women who take Estrogen as Hormone Replacement Therapy (HRT).

## 02. PROGESTERONE

- Progesterone is used for Hormone Replacement Therapy and Female Infertility.
- It is used to Restore Menstruation in Women with Secondary Amenorrhea (The Absence of Menstrual Cycles).

## 05. NORETHISTERONE ACETATE

- Norethindrone acetate is a Synthetic form of the Hormone Progesterone. This Medication is a Hormone Replacement to Balance Progesterone in Your Body.
- It treats Endometriosis, Uterine Bleeding caused by Abnormal Hormone levels and Secondary Amenorrhea.

# QUALITY CRAFTSMANSHIP FOR HORMONAL WELLNESS
