

Sourcing and Management of Active Pharmaceutical Ingredients

We use the highest quality standards in dealing in APIs.

Transo-Pharm is a fully licensed and certified distributor dealing in pharmaceutical components for the health and veterinary industries. We support you during the complete life cycle of your APIs from the product development, market research, sourcing, import-export and sales.

/ qualification
/ logistics
/ sales

Our mission: **We connect people, mentalities and markets in API's.**

Our goal: **Reaching your targets with a friendly and open style creating long-term partnerships within the pharma industries.**

- safeguarded handling of dangerous goods
- cool-chain-management
- drug precursors & narcotics

Product development

- portfolio management
- identification and justification of development candidates
- market research
- project management
- patent research and evaluation
- coordination of development activities
- business development

Our group of companies

Every success has a beginning

- **1987** Philipp Titulski establishes the distributor Transo-Pharm.
- **1999** Transo-Pharm begins offering regulatory services on a global basis.
- **2002** Colleagues start taking shares in the company and Alexander Lipowitsch a holding in Transo-Pharm subsidiary company, Chemex Hamburg.
- **2010** Frank Krause as CFO and Justus Dehio as COO join the management board.
- **2018** Philipp Titulski leaves management board of the operative units.
- **Until today** About 50 dedicated and experienced colleagues of different specialist divisions focus their activities towards our customers and suppliers to achieve an efficient result of high quality. Transo-Pharm today is a global distributor with full regulatory support for API's.

Our quality promise

Our aspiration around quality is a professional approach towards pharmaceutical components and a cooperative relationship with our customers and suppliers.

Technical requirements as well as commercial aspects are taken into account to achieve tailor made solutions for our partners.

We set high expectations for ourselves, which makes it easier to reach our targets.

The satisfaction of our partners worldwide is our number one priority.

Our portfolio of pharmaceutical ingredients

Pharma products under development

We will be happy to supply our project list with our development candidates upon request via development@transopharm.de
